## NEW William Morris from Moda Who Is William Morris?

William Morris was an English textile designer, artist, and writer. Morris had trained as an architect and had early unfulfilled ambitions to be a painter. Morris and his wife moved into Red House in 1860 and spent the next two years furnishing and decorating the interior. Morris did much of the work himself, with help from his artist friends. Prompted by the success of their efforts, they decided to start their own company. In April 1861 Morris, Marshall, Faulkner & Co. was established at 8 Red Lion Square in London. It produced a range of original domestic furnishings including embroidery, tableware and furniture, stained glass and tiles. Wallpapers were soon added to the list because Morris was unable to find any he liked well enough to use in his own home.
