The Ultimate Flying Geese Tool from Creative Grids

Very fast, easy and accurate! Make four Flying Geese at one time - the printed cutting chart on the ruler works for TWO different methods! Or, oversize your favorite method for making Flying Geese, then use the Ultimate Flying Geese Tool to trim to perfection.

Create eight sizes from 1in x 2in up to 4in x 8in finished blocks - the cutting requirements for each size is printed right on the ruler! Or, use your favorite method and create over-sized units... then trim them down to perfection.

Spelling Bee by Lori Holt

Go back to school with Lori Holt of Bee in my Bonnet's fourth book. Spelling Bee includes complete instructions for 100 letter, number, punctuation and picture blocks in two sizes (6 inches and 12 inches) PLUS 18 quilt projects. There are over 190 pages of full color instructions, beautiful photos and general schoolhouse fun.

Baby Quilts for Beginners by Karen M. Burns

Many of us begin our quilting life by starting with small projects - often with a baby quilt. This book is a delightful collection of 13 patterns. It is intended for beginner quilters. The designs are simple, the pieces large, with piecing and applique combined. The only problem to can see is choosing which quilt to make first. They are all beautiful and are a great way to learn quilting. If you can make any of these projects, you have the ability to make any quilt. The book would make a great gift for anyone thinking of starting quilting and the quilts are a perfect gift for baby. The little guy on the front obviously loves his new quilts. You don't have to be a beginner to enjoy these lovely quilts.

Youth Sewing Studio

Join us for an afternoon of sewing fun. This class is for youth sewing artists to start new projects or complete projects while building on their sewing skills.
